

FIBER OPERATIONS & MAINTENANCE (O&M) SPECIALIST

South Central Indiana REMC

South Central Indiana REMC (SCI REMC) is a not-for-profit electric distribution, member-owned cooperative. The cooperative is a leader in distribution technology and is headquartered in a new and progressive facility in Martinsville, Indiana. SCI REMC serves seven counties including Morgan, Monroe, Owen, Brown, Johnson, Putnam and Clay with over 3,542 miles of energized lines and 33,549 meters serving 28,007 members. SCI REMC is excited to add a fiber division and bring broadband services to its members' homes and businesses. The Fiber O&M Specialist will install, splice and maintain the service to help achieve a high level of subscriber satisfaction.

The Fiber O&M Specialist functions in a technician capacity, working primarily in the field, to complete customer installations and service turn-ups at residential locations. The position is under the general supervision of the Sr Manager of the Fiber Division and will perform duties of team leader.

The general objectives for this position include:

- Install, splice, repair all wiring connections, including GPON fiber, etc. outside and inside a home or business of an SCI subscriber. Performs advanced OTDR testing plus advanced troubleshooting.
- Trains other team members on fiber maintenance and devices.
- Responds to emergency and non-emergency fiber outages and coordinates with NOC operators.

If you are interested in this great opportunity and meet the qualifications below, apply confidentially through the SCI REMC website – www.sciremc.com/careers

SCI REMC offers excellent benefits including a pension plan, 401(k) matched savings, healthcare, HSA with a generous employer contribution and much more. Joining the co-op family will prove to be a welcoming, friendly experience where employees are focused on providing the best service to all members and subscribers. Join this unique, not-for-profit business that truly values employees and encourages life-long learning and development.

EDUCATION: High school diploma or equivalent required.

EXPERIENCE: Minimum of one year hands-on, demonstrated working experience with fiber in construction and maintenance planning deployment required, with three years preferred.
