Artwork theme

Create artwork that shows the people, places, or activities that help power our state and keep Indiana moving forward.

This could include people, nature, agriculture, landscapes, businesses, or moments from everyday life in your community. Think about how power is all around us — from the energy that lights our homes and buildings to the people who work together to strengthen life where we live.

Electric cooperatives are built on community and the people who live in them, so let your art show the many ways that together, we power Indiana.

Students of all ages can interpret the theme in their own way.

Here are some ideas to spark creativity:

- Indiana landscapes or everyday life (farms, small towns, neighborhoods, etc.)
- Ways people use energy and electricity to power places or daily activities
- Community helpers (lineworkers, farmers, teachers, first responders, families)
- Important places like schools, hospitals, or community spaces
- Agriculture, industry, or Indiana businesses
- Community events, traditions, or local landmarks
- A creative or imaginative vision of Indiana's energy future
